## IPA SANITIZER WIPES

### *Pre-Saturated Hand and Hard Surface Wipes*

**DESCRIPTION:** IPA SANITIZER WIPES are ready to use, pre-soaked wipes containing a 70% alcohol-based sanitizer. They are excellent for use in food plants and other facilities where sanitation is a high priority. IPA Sanitizer Wipes are a quick and effective method of hand sanitizing as well as applying a no-rinse sanitizing solution to food contact surfaces.

#### PRODUCT SPECIFICATIONS

- Isopropyl Alcohol: 70% (v/v)
- Health Canada Product License Issuance - NPN 80102043
- Conforms with Health Canada and World Health Organization guidelines.

**DISPENSER DIRECTIONS:** To start feed, break tamper proof tab and remove lid. From center of towelette, pull up a towelette corner, twist it into a point and thread it through the hole in the container cover. Pull through about one inch. Replace cover. Pull out first towelette and tear off at a 90° angle. Remaining towelettes feed automatically, ready for next use. When not in use, keep center cap closed to prevent solution loss.

- A. Food Contact Hard Surface Sanitizing:** Thoroughly clean and rinse hard and non-porous surfaces with potable water. Wipe surfaces only after they have been thoroughly drained. **No rinse is required.**
- B. Spot Sanitizing During Production:** Wipe contaminated surface, **DISCARD TOWELETTE.**
- C. Mid-Shift Clean-Up:** At start of mid-shift clean-up wipe **IPA SANITIZER WIPES** on to surfaces/equipment to aid in microbe/bacterial control. Heavily soiled areas can be wiped then re-wiped. **DISCARD TOWELETTE.**
