Valuemed Team

Spotlight on Robbie Mowatt

How long have you been at Valuemed?

I had the opportunity to join the Valuemed team in early 2024. It's great to be part of a family-run Canadian owned company. I am excited to bring my years of knowledge and share them with our new and established BC

dental practices, and to help support them during these challenging times.

What is your role?

As the Dental Territory Manager for the Tri-Cities area, the Valley, Langley and South Surrey I want to share my dental industry experience to help build your practice. I enjoy working with each member of the dental team to learn what each individual needs to be successful. Most importantly, I want to provide the on-going support needed to maintain a thriving dental practice.

What is your background?

In addition to working on the Registration Committee with the BC College of Dental Surgeons, I was a certified dental assistant for over 20 years with a local family-owned practice that allowed me to expand my skills beyond assisting to include purchasing, equipment maintenance, employee training and management. I want to utilize everything I have learned, to help build strong community relationships and provide the best products and service for your office based on your specific needs. I am an avid learner. Enjoy staying current with new products and industry trends and look forward to sharing this with you.

What's your favorite part about this job?

My favourite part of what I do is building genuine relationships with dental professionals and helping them find solutions that truly improve patient care and practice efficiency. I relate to the fast-paced environment of a busy dental practice and enjoy using my knowledge to help anticipate needs and suggest products that will make a meaningful impact.

What hobbies do you enjoy?

In my spare time, I enjoy landscaping and gardening along with home design and renovations. I like taking something back to a clean canvas and creating something new. I am a cycling enthusiast and happiest camping with my husband and our dog, Rebel. I cherish my time with my daughter and her fiancé – family means everything to me.

I look forward to working with you and welcoming you to the Valuemed family.

Receive a **FREE** pack of 6.3 mm Regular Matrices (value \$129) **with purchase of DME-01 or RMK05 kit**

(FREE pack contains: ReelMatrix 6.3 mm Regular Matrices (qty. of 50) RM200H)

Clinical Case: The margin elevation technique allows proper isolation and elevation of deep margin areas prior to restoring with an indirect partial coverage restoration (inlay or onlay). The use of the Garrison® Reel Matrix™ margin elevation band allows proper adaptation and seal of these deep areas so that a composite margin elevation can be performed.

Pre-op X-ray shows the margin location for #17 subgingivally prior to elevation.

Seat the margin elevation band subgingivally. The narrowness of the matrix will allow it to slide subgingivally and seal the margin efficiently.

Seal the dentin and elevate the deep margin with restorative composite.

Remove the matrix and finish with a #12 blade to remove any flash. The deep margin has been relocated 1-2 mm supragingival for predictable isolation and delivery of an indirect bonded restoration.

Post-op X-ray shows the completed margin elevation prior to final restoration being completed.
