Valuemed Team Spotlight on Sheri Rosenau-Sakell

How long have you been at Valuemed?

Sheri has been with Valuemed for seven months.

What is your role?

Sheri serves as the Dental Territory Sales Representative for South Calgary and Southern Alberta.

What is your background?

She brings over 32 years of experience in the dental industry, including 16 years as a Level 2 Registered Dental Assistant specializing in pediatric and orthodontic care, and another 16 years in dental sales.

What's your favorite part about this job?

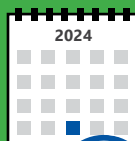

Sheri is passionate about building strong relationships and delivering exceptional customer service. Her enthusiasm for sales and commitment to client success are evident in every interaction.

She joined Valuemed to continue her professional growth within the dental industry, working with a trusted supplier and embracing new opportunities to expand her knowledge. As a proud Calgarian, Sheri values that Valuemed is both Alberta-based and Canadian-owned - strengthening her connection to the company and the communities she serves.

What hobbies do you enjoy?

Beyond her role at Valuemed, Sheri finds joy in exploring the outdoors, capturing moments through photography, attending vibrant Calgary events and live concerts, traveling with her husband, and unwinding with a glass of wine among friends.

Sheri's contact info: sherirosenausakell@valuemed.ca

MARK YOUR CALENDAR FOR DOUBLE VALUE!

Place your order on the
LAST WEDNESDAY of
every month & **earn 2x
ValueRewards points.**

RIVA SELF CURE

When you are thinking composite resin, think again. Riva Self Cure could be your answer. Remember, no other strong restorative has such high fluoride release, little need for undercuts and the ability to remineralize tooth structure.

SC Regular Set, 50 Capsules/Pkg. **2+1 \$310.66**, Reg. \$465.99

A1 303-8600001
A2 303-8600002

A3.5 303-8600004

RIVA LIGHT CURE

You know how wonderful a traditional glass ionomer is for your patients' healthy teeth, but you don't like the aesthetic qualities. Riva Light Cure has all the advantages of a true glass ionomer with the esthetic life-like look of a composite.

LC Regular Set, 50 Capsules/Pkg. **2+1 \$310.66**, Reg. \$465.99

A1 303-8700001, A2 303-8700002
A3 303-8700003, A3.5 303-8700004

RIVA PROTECT

There are many situations where you know protection of the surface is required: pit and fissure sealants, root / tooth surfaces, preventing hypersensitivity, temporary restorations and temporary endodontic sealing. You will often see carious situations you would like to remineralize. Riva Protect is your weapon.

RIVA SILVER

When you need a tough and strong core build up material or occlusal restoration, Riva Silver could be your answer.

Riva Silver is an excellent core build up material. At the same time, it is a great restorative. When all else fails, Riva Silver could be your solution.

LC Regular Set, 50 Capsules/Pkg. **303-8670008, 2+1 \$538.99**, Reg. \$538.99

RIVA LUTING

When deciding on a luting cement, there are many types to choose from. Use Riva Luting when you need an easy self curing mix, with high fluoride release, good radiopacity, and adhesion to metal and tooth surfaces.

RIVA LUTING PLUS

Riva luting Plus is designed for final cementation of metal, PFM and resin crowns, bridges, inlays and onlays plus ceramic inlays and crowns. Riva Luting Plus chemically bonds to dentin, enamel and all types of core material.

Intra-oral Adjustment/Polishing
for Zirconia and Lithium Disilicate

Adjust and Polish Zirconia and
Lithium Disilicate the **eZr** Way!

eZr Intra-oral Adjustment:

- **No chatter, chipping or microfracture**
- Unlike diamonds bonded directly to a hard metal shaft, eZr's rubber substrate cushions the diamonds to prevent damage to the restoration.
- **No heat build-up** - The carefully engineered substrate does not transfer heat during use.
- **FAST!** - eZr's coarse grit blue grinders make your adjustments fast and convenient.

eZr Intra-oral Polishing:

- **Unparalleled smooth polish**
- Don't take our word for it! - "The eZr system is the only one I've tried that polishes zirconia to smooth!" Todd Brower, DDS, Holland, Michigan.
- **Increased physical stability** - Highly polished zirconia and lithium disilicate is stable and non-abrasive to opposing dentition.
- **No paste required** - Forget the mess and expense of polishing pastes. eZr is all you need.
- **No water required** - No need to use water when polishing. Water is only required for high speed.

1 Start by gross adjusting and contouring using the blue coarse grit grinders. Use the flat end taper for occlusal/labial/lingual/buccal surfaces and the disc for interproximal surfaces.

2 Use the green medium grit polishers for smoothing and pre-polishing. Use the point for the occlusal grooves, the cup for labial/lingual/buccal, and the disc for interproximal surfaces.

3 Use the orange fine grit polishers for high gloss polishing. Use the point for the occlusal grooves, the cup for labial/lingual/buccal, and the disc for interproximal surfaces.

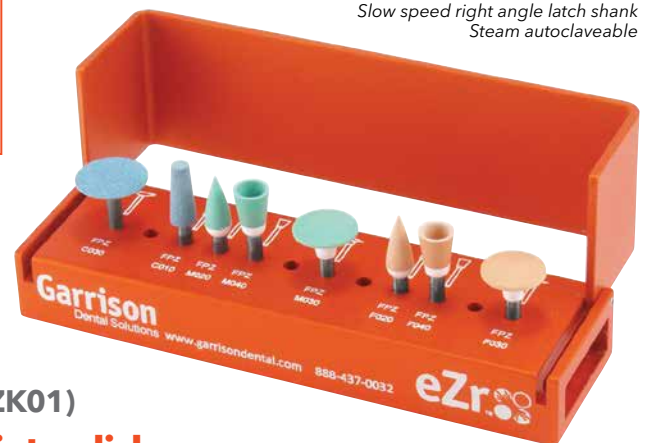

Beautiful results!

Complete System Kit

Includes: 2 grinders & 6 polishers
