Valuemed Team Spotlight on Natalie Reimnitz

.....

What drew you to this field, and how did you get started?

I've always enjoyed connecting with people and building relationships. After spending 13 years as a Registered Dental Assistant, moving into dental sales felt like a natural fit because it allowed me to combine my clinical knowledge with my passion for helping practices succeed. I love that every day brings new opportunities to meet people, solve problems, build incredible friendships and make a positive impact on dental offices.

How do you stay current with new products & trends in the industry?

I believe continuous learning is essential in dental sales. I stay current through manufacturer training, my own research for product education, and by listening to the needs of the dental professionals I work with every day. Dentistry is always evolving, and I enjoy learning about new technologies and solutions that can benefit my customers.

What's one thing you can't work without?

If I had to choose one thing, it would be my relationships. The connections I've built with my customers and team are invaluable. On a practical level, I also never go anywhere without my phone, notebook, and pen, they keep me organized and connected while I'm on the road.

What's your favorite lunch spot or snack?

I have a busy schedule and spend a lot of time on the road, so I'm usually a smoothie-for-lunch person or some kind of light snack along with my car candy! I like a smoothie packed with protein, fruit, and healthy ingredients that keeps me energized throughout the day.

What's a hidden talent you have?

I love experimenting in the kitchen and creating meals that bring people together, it's how I also show care and love for the ones I love. I also have a passion for gardening and landscaping, so whether I'm cooking a delicious meal or designing an outdoor space, I enjoy creating things that bring peace and people can enjoy.

Contact Natalie at: natalier@valuemed.ca

Pick-Your-Product Q4 Promotion

Place an order with us for \$500 or more
and pick a free product gift
of your choice!

Handpiece Repair Service

We repair the most popular handpieces on the market including Sable, Kavo, and Flight.

- Trained certified technicians
- 12 month hassle free guarantee
- Pre-approved repairs within 72 hours

Order your first repair & get a **\$50 repair credit** towards your second repair!

\$62.50 diagnostic fee per handpiece. Diagnostic charge is waived if the repair is approved, a replacement handpiece is purchased from us, or the handpiece is repaired under warranty. If we do not receive approval of the repair quote within 30 days, the diagnostic fee will be charged, and the handpiece returned to you.

To request a repair, simply fill out our form at: www.valuemed.ca/repair or scan the QR code below to start

POLA

ADVANCED TOOTH WHITENING SYSTEM

Increase your whitening sales with the POLA advantage.

Predictable results

Over 25 years of clinical heritage delivering reliable, consistent whitening outcomes and improved patient satisfaction.

Flexible treatment options

Includes in-chair, take-home, LED-enhanced, aligner-compatible, and on-the-go whitening solutions to suit different patient needs and lifestyles.

Maximum patient comfort

Formulated with potassium nitrate and a high-water content to improve patient comfort.

Supports practice growth

A high-demand, non-invasive treatment that can increase treatment uptake and expand esthetic dentistry offerings.

The Pola advantage combines proven clinical performance, personalized treatment choices, and practice marketing support to help drive profitability.

Dr. María José Naranjo Cabezas is a restorative and aesthetic dentist based in Quito, Ecuador. She holds a DDS, Master's, and PhD in Dental Sciences and specializes in biomimetic dentistry, direct restorations, and oral rehabilitation. In addition to private practice, she serves as an adjunct professor and national speaker, sharing her expertise in restorative techniques and dental education.

CASE STUDY

ReelMatrix™ as a Predictable Tool for Margin Elevation and Core Build-Up Prior to Indirect Restorations

Radiographic evaluation showed extensive carious lesions beneath the existing restorations.

After endodontic treatment of tooth #1.4, the provisional material from tooth #1.4 and the old restoration and carious lesion on tooth #1.5 were removed.

Due to the extension of the carious lesions, the cavity margins on both teeth were located at a subgingival level.

After completing the adhesive protocol using a universal adhesive system, it was decided to perform margin elevation and core build-up using the ReelMatrix™ system.

A highly filled flowable composite resin, G-aenial Universal Injectable by GC, and Solare composite resin by GC were used for the restorative build-up.

Once the build-up was completed, the matrix bands were removed, and both teeth were prepared to receive indirect restorations.

In a third appointment, the indirect restorations were cemented.

THE REEL DEAL.

REFILL. RESTORE. REPEAT.
