SDI GLASS IONOMERS

ANY RIVA | **2+1^{*}** **BUY 2, GET 1 FREE**

RIVA SELF CURE

When you are thinking composite resin, think again. Riva Self Cure could be your answer. Remember, no other strong restorative has such high fluoride release, little need for undercuts and the ability to remineralize tooth structure.

RIVA LIGHT CURE

You know how wonderful a traditional glass ionomer is for your patients' healthy teeth, but you don't like the aesthetic qualities. Riva Light Cure has all the advantages of a true glass ionomer with the esthetic life-like look of a composite.

RIVA PROTECT

There are many situations where you know protection of the surface is required: pit and fissure sealants, root / tooth surfaces, preventing hypersensitivity, temporary restorations and temporary endodontic sealing. You will often see carious situations you would like to remineralize. Riva Protect is your weapon.

RIVA SILVER

When you need a tough and strong core build up material or occlusal restoration, Riva Silver could be your answer.

Riva Silver is an excellent core build up material. At the same time, it is a great restorative. When all else fails, Riva Silver could be your solution.

RIVA LUTING

When deciding on a luting cement, there are many types to choose from. Use Riva Luting when you need an easy self curing mix, with high fluoride release, good radiopacity, and adhesion to metal and tooth surfaces.

RIVA LUTING PLUS

Riva Luting Plus is designed for final cementation of metal, PFM and resin crowns, bridges, inlays and onlays plus ceramic inlays and crowns. Riva Luting Plus chemically bonds to dentin, enamel and all types of core material.

COLLIMATED FOR A DEEPER, MORE RELIABLE CURE

An uncollimated LED curing light delivers diminishing curing energy over the depth of a restoration. As shown in Fig 1, the uncollimated LED quickly fades, offering very little curing energy for deeper restorations.

The collimated beam of the Radii-Cal CX delivers curing uniformity across all curing depths. This ensures a fast and predictable cure for all restorations.
