— 2025 FOURTH QUARTER —

BeautiBond Xtreme is a universal bonding agent with Quad-Adhesive Technology. A single layer provides a strong and reliable bond for direct and indirect restorations. The 5µm film thickness penetrates deep into the dentinal tubules for secure adhesion, eliminating marginal stain lines and the risk of postoperative sensitivity and microleakage. Compatible with all light-, dual-, and self-cured materials and can be used with any bonding technique. Order now and take advantage of our quarterly special offer!
