

Effective Distraction for Needle Poke
Apprehension and Anxiety

ShotBlocker®

A simple, non-invasive device that distracts patients from needle poke pain signals.

MADE IN THE USA

FEATURES

- Created based on the Gate Theory of Pain Management
- Multiple blunt contact points saturate the sensory signals around the injection site
- Non-invasive and drug-free
- Can be used on children and adults
- Versatile - can be used for home injections or taken to doctor or pharmacist appointments

BENEFITS

- Helps healthcare providers distract patients from needle poke anxiety
- Quick and effective results
- Easy to use
- Eliminates the need for anesthetic creams and topical sprays
- Created by a pediatrician

PRODUCT OFFERING

#8050: Box of 50 ShotBlockers

#8100: Box of 100 ShotBlockers

“One of the most awesome devices. We have patients coming in asking for ShotBlocker by name because of the prior experience.”

- Prithvi Sawh, MD
